# Open Culture Protocol

Proposal

In order to stablish a laic-interfaith diplomatic crosscultural reliability engineering the *Ecumenic Creative Operations* (https://ecumenic.github.io) is collaboratively researching the following open-source semantic-web cultural devops ontology. Aid its project's github repository (https://github.com/ecumenic/open-culture).

Semantic-Web Ontology

Culture\Cultivation	*Investment*	*Governance*	*Production*	*Consume*
Terminal	Market	Governments	Ecomuseology	Media
Application	Institution	Rule-Of-Law	Development	Interactivity
Security	Transparency	Risk-Management	Harm-Reduction	Journalism
Platform	Accountability	Policing	Compliance	Crossculturality
Network	Accessibility	Inclusivity	Logistics	Education
System	Promotion	Auditorship	Distribution	Commodification
Analysis	Safeguard	Cybernetics	Ethics	Health
Ontology	Economy	Ecology	Aesthetics	Laicity
Semantics	Connectivities	Fair Trade	Methodology	Performativity
Semiotics	Solidarity	Enforcement	Communicology	Noetics
Politics	Philanthropy	Diplomacy	Heritage	Sociology
Technology	Commerce	Glocality	Devops	Previdence
Data-Science	Data-Analysis	Data-Ethics	Info-Science	Curatorship

Columns are user experience flows and rows interdisciplinary reliability engineering.
